

# Energy Code checklist

The Illinois Energy Conservation Code requires design and construction professionals to follow the latest published edition of the International Energy Conservation Code (IECC) and the American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE) Standard 90.1 "Energy Standard for Buildings except Low-Rise Residential Buildings" including amendments adopted by the Capital Development Board.

The city of Mount Carmel does not regulate the Illinois energy conservation code, this checklist is a way to help you determine if you meet state regulations.
